OIT-0302-87

28 May 1987

MEMORANDUM FOR: Deputy Director for Administration

FROM: Edward J. Maloney
Director of Information Technology

SUBJECT: Weekly Report for Week Ending 29 May 1987

25X1 *1. The two high speed AT&T leased lines between Headquarters and [] which have experienced extensive outages over the past several weeks, have been partially restored to service. One line is now operational and passing live traffic after completing a 24-hour test. The other line is still being tested. The Director of the Office of Information Technology has written a letter to AT&T expressing his dissatisfaction with their service on these circuits and requesting a meeting with the AT&T district manager to discuss the problem. []

25X1 2. The final delivery of enhanced SAFE Delivery 2 software was delivered to the operational system on 19 May 1987. This software included new versions of several major software subsystems. In the future the only changes to be made to Delivery 2 software will be those which are absolutely necessary to keep the system operational. All other enhancements will be incorporated into the Delivery 3 version which is scheduled to replace Delivery 2 in the near future. []

25X1 3. The Information Security Oversight Office's 1986 Report to the President on Executive Branch compliance with Executive Order 12356--National Security Information--is favorable to the Agency. The Report commends the Agency for reducing the number of individuals authorized to make original classification decisions and for a decrease in the number of original and derivative classification actions. Among Executive Branch agencies, the Department of Defense accounted for 68% of all classification activity; the Agency 24%; the Department of Justice 5%; Department of State 2%; and all others 1%. []

*Items of special interest

CONFIDENTIAL

25X1 4. OIT notification of the proposed rule titled "Public Access to Documents and Records and Declassification Requests" was published in the Federal Register on 18 May 1987. The proposed rule would amend the Agency's Freedom of Information Act fee schedule in compliance with the Freedom of Information Reform Act of 1986, which requires all agencies to conform to a uniform schedule of fees based on the Office of Management and Budget guidelines and Department of Justice guidance. In approximately two weeks, notification of this proposed rule will be followed up with a final rule to be submitted to the Federal Register for publication. [redacted]

25X1 5. On 20 May 1987, the Chief of the Agency Archives and Records Center (AA&RC) briefed the Historical Review Program conferees, including the Acting Archivist of the United States and other distinguished historians on the recently established AA&RC Records Preservation Program. The program, begun in mid-1986, is designed to preserve important documents relating to the history of CIA. [redacted]

25X1 6. The renovation project for [redacted] has been completed. The project began in September 1986 and included the relocation of numerous secure and nonsecure telephones and terminals. This renovation enabled the Office of Logistics to expand their existing facilities to support new staff requirements. [redacted]

25X1 [redacted]
